User Information:					
Washing:	Superficial pollution can be removed by brushing. Washable at max. 60 °C, 5X				
Storage:	The glove should be stored in a cool and dry environment at normal room temperature.				
Limitations:	For special firefighting (entering fire or fire approach) other, special gloves (e.g. according to EN 1486) are required. After mechanical or thermal stress the glove has to be checked for damage. Superficial damage by abrasion, sharp or edged objects, by heat and high pollution affect the protective effect. Protective gloves with such or similar damages must be sorted out.				
Pictogram and performance levels according to EN 659:2003+A1:2008+AC:2009
